Poster display frames are designed to display sheets of paper in the form of a poster, notice, temporary sign, P.O.S signs or graphics, and hundreds of other useful applications.

Supply One carries a large range of Poster Frames from Signlink which cater for a number of requirements from unobtrusive frames to robust display frames designed to be used in environments where it could be subject to interference from the public.

All frames come in a standard Satin Natural Anodised finish, however they can be custom painted to any colour required. If you are trying to frame an irregular sized poster then we are able to custom make any of the Signlink frames to suit your specific size.

## Signlink Poster Display

### PD900 - Alpha Poster Display

Budget priced model which is only suitable for smaller sizes up to A3. The top frame is removable to allow a poster to be slid in place behind 1mm thick polycarbonate cover. Removable trim is secured by either screws or magnetic tape. Significant feature is its 3mm wide frame.

### PD910 - Avant Garde Poster Display

Slimline unit which is only 6mm thick. Very economical unit. Not suitable for mechanical fixing. Polycarbonate cover which is held in place magnetically - it has a 14mm wide screen printed border.

### PD920 - Displaymax Poster Display

This model has a square edge and is 12mm thick. Best suited for sizes in the range of A2 - AO. It also has a magnetic cover with a 14mm wide screen printed border.

### PD930 - Grandeur Poster Display

This model is very similar in appearance to the Displaymax except that it is 17mm thick. It is suitable for sizes larger than AO.

### PD940 - Double Sided Grandeur Poster Display

This is a double sided model which is suitable to be suspended on stainless steel wires or rigid rods. Alternatively, it can be mounted between two sign posts

### PD950 - Panache Poster Display

Very attractive unit with petite radius edge which makes it very suitable for high traffic areas. It has a removable cover similar to the Displaymax model.

### PD960 - Panorama Poster Display

Extremely robust frame which is well suited for external use where it is required to cope with some abuse (pubs, nightclubs, public transport etc). Can accept multiple posters.

### PD970 - Portfolio Poster Display

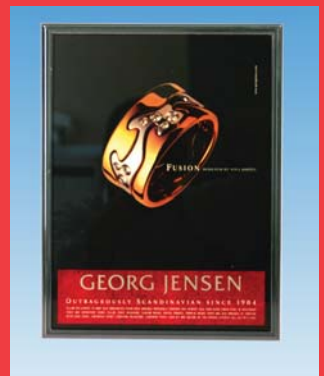

This model is the top of the range - it has the same features as the Panorama model except that it has a pronounced outer frame which is a striking feature of the sign. Suitable for multiple posters. Ideal for external menu sign.

## Window Clipframe

Perfect for most any retail or commercial shop front. Enabling both internal and external graphic visibility, the window clipframe is simply affixed directly onto the glass with double sided tape (supplied on frame).

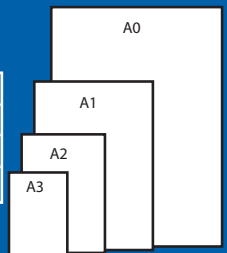

Double Sided Viewing  
Includes double sided tape to fix frame to window.  
Available in  
A3 (297mm x 420mm)

### 32mm Clipframe

Available in

A3	(297mm x 420mm)
A2	(420mm x 594mm)
A1	(594mm x 840mm)
A0	(840mm x 1188mm)

## Posterstretch

offers a truly unique design alternative for displaying information and uses a clever clip and spring device to hold the poster. Supplied in kit form complete with suspension loops, Posterstretch frames are simple to assemble and enable quick and easy change of images via a use of spring loaded corner clamps. Suction cups for window mounting sold separately.

Available in

A2	(420mm x 594mm)
A1	(594mm x 840mm)
